

CITIZEN'S CHARTER HANDBOOK

2023 (1st Edition)

CITY OF SAN FERNANDO WATER DISTRICT

B. Mendoza St., Brgy. Sto. Rosario, City of San Fernando, Pampanga

CITIZEN'S CHARTER

2023 (1st Edition)

I. Mandate:

The City of San Fernando Water District (CSFWD) was formed on December 16, 1976 by virtue of Resolution No. 94 of the Sangguniang Bayan (Municipal Council) of San Fernando. In March 7, 1977, the ownership and management of the entire water system was turned over from the Municipal Government to the City of San Fernando Water District in accordance with Presidential Decree No. 198 (The Provincial Utilities Act of 1973).

The Conditional Certificate of Conformance # 040 was then issued on May 5, 1977 by the Local Water Utilities Administration (LWUA) to formalize the establishment of CSFWD.

The water district's mandate is contained in Presidential Decree (PD) No. 198 as amended by PD Nos. 768 and 1479, otherwise known as the "Provincial Water Utilities Act of 1973", declaring a national policy favoring local operation and control of Water Systems; authorizing the formation of Local Water District and providing for the government and administration of such districts. Sec. 5 of Title II of PD 198, the purpose of forming local water district include the following:

- Acquiring, installing, improving, maintaining and operating water supply and distribution systems for domestic, industrial, municipal and agricultural uses for residents and lands within the boundaries of such districts,
- Providing, maintaining and operating wastewater collection, treatment and disposal facilities, and
- Conducting such other functions and operations incidental to water resources development, utilization and disposal within such districts, as are necessary or incidental to said purpose.

II. Vision:

The CSFWD envisions itself to become a pillar of sustainable development in the City of San Fernando, a globally competitive provider of safe and potable water including sanitation managed by highly competent people in the service of its stakeholders by 2028.

III. Mission:

We are committed to the efficient and effective development, utilization and disposal of water resource to make it available and accessible to the City's constituents.

IV. Service Pledge:

To achieve this mission, we uphold these core values:

- Professionalism - *creating and maintaining a culture where respect for work standards is paramount and where we help one another in striving for excellence*
- Selfless Service - *performing our work without any thought of reward or repayment*
- Integrity - *having upstanding character traits and work ethics including sound judgement, honesty, dependability, and loyalty*
- Competence - *performing our work effectively and efficiently to achieve excellence*
- Patriotism - *showing our love and devotion to our country*
